

KEEP YOUR HEALTH INFORMATION AVAILABLE

It's important to share your treatment information with medical professionals who may not be part of your regular care team, such as emergency room staff. Use this helpful card to show them your treatment plan to ensure you receive the most appropriate medications and care. Keep it safe in your wallet or purse so you always have this important information nearby.

HOW TO USE THIS HELPFUL CARD

Print it and fill it out

Print this page and fill out the information. If there's any information you're not sure about, ask your care team.

Cut it out and fold it

Use scissors to cut the card out along the **orange line**. Then fold the card at the **blue line** to create a card with information on the front and back.

Keep it on you and share it

Carry the card in your wallet or purse so you always have it nearby. Show the card to anyone providing you medical care so they'll know you're on treatment.
